

# JOHN EDWARD LEÓN MUÑOZ

## Senior Front End Engineer | JavaScript & Web Architecture Specialist

Bogotá, Colombia | [jleon253@gmail.com](mailto:jleon253@gmail.com) | +57 3112456978

[linkedin.com/in/jleon253/](https://linkedin.com/in/jleon253/) | [github.com/jleon253](https://github.com/jleon253) | Portfolio: ([behance.net/jleon253](https://behance.net/jleon253) & [codepen.io/jleon253/pens/](https://codepen.io/jleon253/pens/))

### PROFESSIONAL SUMMARY

Senior Front End Engineer with over 10 years of experience (since 2013) leading the development of high-performance and high-availability web applications. Expert in the JavaScript ecosystem (ES6+) and its various frameworks, with a technical focus on clean architecture and user experience optimization. Certified UX Design specialist and subject matter expert in Web Accessibility (WCAG 2.2), ensuring inclusive and technically robust products. Mentor to technical teams under Agile methodologies, focused on elevating code quality standards and operational efficiency.

### TECHNOLOGIES AND SOFTWARE

- **Languages and Architecture:** JavaScript (Expert ES6+), TypeScript, Semantic HTML5, CSS3 (SASS/LESS), DOM manipulation, Clean Architecture, Micro-frontends, and reusable component design.
- **Frameworks and Ecosystem:** React, Angular, Vue.js, Svelte, Tailwind CSS, Redux, Zustand, Context API, REST APIs, Axios, RHF, Zod, Node.js.
- **Senior Specializations:** Web Accessibility (WCAG 2.2), UX/UI Design, Core Web Vitals Optimization, Unit Testing (Jest, Vitest, RTL).
- **AI and Work Environment:** Git, GitHub/GitLab, Webpack/Vite, Jenkins, GitHub Actions, CircleCI, Cursor, GitHub Copilot, Gemini, Notebook LM, Stitch, Lovable, Antigravity.
- **Methodologies and Systems:** Atomic Design, Responsive Design, Agile methodologies (Scrum and Kanban), and Unix/macOS environment (Terminal/Bash).

### PROFESSIONAL EXPERIENCE

**Globant | Senior Front End Engineer** Dec 2020 – Aug 2025 | Bogotá, Colombia (Remote)

#### Clients and Sectors Served:

- **USA:** The Walt Disney Company (ESPN Fantasy), OCLC (WorldCat & WMS), Round Feather Inc (Paven App).
- **Latam:** Abbott (Contigo Abbott), Federación Patronal Seguros (MARS), Itaú Bank (CorpBanca).
- **Internal (Globant):** Development of strategic products such as Glow, FitMe, and My Footprint.

#### Key Achievements:

- **Team Leadership:** Managed and guided technical teams of up to 6 developers, optimizing task delegation and ensuring delivery under Agile methodologies.
- **Architecture Modernization:** Led the migration of legacy systems (Yahoo UI, Oracle Forms) toward modern Micro-frontend architectures using React 18 and Angular 16.
- **AI Efficiency:** Implemented GitHub Copilot and Cursor AI into the workflow, increasing productivity in refactoring and testing by 20% to 35%.
- **Web Accessibility:** Guaranteed compliance with WCAG 2.2 standards across multiple projects, ensuring inclusive interfaces for banking and healthcare sectors.
- **Design Systems:** Built reusable component libraries based on Atomic Design, accelerating Time-to-Market for various business units.
- **Code Quality:** Raised test coverage to over 80% (Jest, Vitest), significantly reducing production incidents and improving software reliability.

**Technologies used:** React 18, Angular (v12 to v16), Vue 3, TypeScript, JavaScript (ES6+), Redux (Toolkit/NGXS), Vuex, Zustand, SASS/SCSS, Tailwind CSS, Material UI, Storybook, Micro Frontends (Single-Spa), REST APIs (Axios), Jest, Jasmine, Vitest, Cursor AI, GitHub Copilot.

**BITS Americas S.A.S | Front End Developer** Sep 2018 – Jan 2020 | Bogotá, Colombia

**Main Client:** Tigo Latam (Project: "Mi Tigo" - Telecommunications Sector).

**Key Achievements:**

- **Large-Scale Development:** Participated in the creation of over 10 user interface modules for a responsive web application, impacting a base of over 5 million active users.
- **Integration Optimization:** Reduced API integration time by 40% by optimizing microservices connectivity and efficient REST API consumption.
- **Accessibility Standards:** Early implementation of WCAG 2.2 standards, ensuring that critical self-management features were fully inclusive and accessible.
- **Code Scalability:** Introduced Atomic Design methodology into the workflow, achieving a highly reusable component architecture that increased team delivery speed.

**Technologies used:** Angular (v2-8), SASS, REST APIs, WCAG 2.2, Atomic Design.

**Freelancer | Front End Developer & Web Designer** Apr 2016 – Jun 2018 | Bogotá, Colombia

**Clients:** DIGISTART Group, Ingenieros de Marketing, Management and Quality, and other E-commerce SMEs.

**Key Achievements:**

- **E-commerce Development:** Led the development of over 15 commercial platforms based on WordPress, integrating complex payment gateways (PayPal, PayU) and ensuring transaction security.
- **UX/UI Optimization:** Increased customer conversion rates by 25% through the design and implementation of user-centered responsive interfaces.
- **Product Life Cycle:** Managed full-cycle projects: Sales → Design (branding/2D animations) → Development and maintenance.
- **Standard Layout:** Implemented solid structures using semantic HTML5 and advanced CSS3, ensuring cross-browser compatibility and basic SEO optimization.

**Technologies used:** WordPress CMS, Vanilla JS, HTML5/CSS3, Adobe Creative Suite (Illustrator, Photoshop, After Effects).

**Profamilia | IT Instructor & Software Consultant** Jan 2016 – Mar 2016 | Bogotá, Colombia

**Key Achievements:**

- **Training and Adoption:** Led the technical training of over 80 new employees on software systems for data collection, ensuring information integrity for the ENSIN 2015 project.
- **Support Optimization:** Reduced support tickets by 30% through the creation of intuitive technical documentation and the simplification of UI flows for non-technical users.

**Helio 4 S.A.S & Solredes Ltda | Full Stack Developer** Aug 2013 – Feb 2016 | Bogotá, Colombia

**Key Achievements:**

- **Financial Systems Development:** Developed enterprise web applications using Java JEE6, PrimeFaces, and JBoss servers for financial services and BPM flows.
- **Data Optimization:** Reduced report generation times by 40% through the optimization of complex SQL queries (PostgreSQL/SQL Server).
- **End-to-End Architecture:** Responsible for the full development life cycle, from user interface (JSF) to the database (CRUD operations).

**Technologies used:** Java JEE6, JSF, PrimeFaces, JBoss, PostgreSQL, SQL Server.

## EDUCATION AND CERTIFICATIONS ([Full List](#))

---

### Academic Background

- Telematic Engineering | Universidad Distrital Francisco José de Caldas (Current - Thesis).
- Data Systematization Technology | Universidad Distrital Francisco José de Caldas (2013).

### Front End and Architecture Specialization

- Front End Architect | Platzi (2020).
- [Front End Developer](#) & [Front End Architecture](#) | Platzi (2020).
- [React.js La guía completa: Hooks, Context, Redux MERN + 15 apps](#) | Udemy (2020).
- [Angular: De cero a experto creando aplicaciones](#) | Udemy (2020).
- [Vue.js – Aprende a crear aplicaciones web completas](#) | Udemy (2020).

### Accessibility, UX, and Innovation

- [Diseño y desarrollo de sitios web accesibles](#) (WCAG) | SENA (2018).
- [Diseño UI](#) | EDteam (2020).
- Course in Innovation, Formulation, and Project Management | Universidad Distrital (2019).

### Emerging Technologies

- AI Coding Assistant Tools – Tips & Tricks | Globant University (2023).

## LANGUAGES

---

- **Spanish:** Native.
- **English:** B1 - Intermediate (Based on recent Globant evaluations and direct practice with US-based clients).
